## **Professional Summary**

I am a results-driven visual merchandising leader with over 15 years of experience in the beauty industry, overseeing the regional execution of brand strategies, optimizing POS presentation, and enhancing the customer experience across diverse retail formats, including Sephora and Faces and other key accounts. I specialize in aligning global visual directives with local market needs while leading cross-functional projects and ensuring operational excellence.

I have successfully led a full audit and classification of all POS assets across the Kingdom, identifying unit types, locations, and specifications in record time to support strategic planning. I also made a customized program to monitor the field activities of the visual merchandising team, enabling real-time tracking and performance optimization.

I manage POS inventory with a focus on repurposing and sustainability, ensuring cost-efficiency and visual consistency. I collaborate with marketing, design, sales, and store operations to ensure the timely execution of seasonal campaigns, new store openings, and high-impact events.

Technically skilled in Microsoft Excel, PowerPoint, Word, Adobe Photoshop, Illustrator, SketchUp, and the IWD Planogram App.

---

## **Out-of-the-Box Projects**

Designed and launched a Snapchat filter for International Women's Day across multiple beauty brands, increasing engagement and digital visibility.

Developed and implemented a inventory system, improving field accuracy and asset control.

Created an interactive Google Maps visualization tool displaying all POS locations across the Eastern Region, enabling visiting & auditing by senior management without field assistance.

---
